MILAN SIJO

Software Engineer | AI/ML | Python, Java, Generative AI
Changanacherry, Kerala, India | +91 86061 43013 | milansijo@gmail.com
LinkedIn: linkedin.com/in/milan-sijo-ms | GitHub: github.com/milansijo | Hugging Face: huggingface.co/milaa1

PROFESSIONAL SUMMARY

MCA student (2025–2027) and Software Developer Intern with hands-on experience building full-stack applications and AI/ML systems in Python, Java and JavaScript. Built Gesturera, a real-time ASL recognition system with sub-33 ms end-to-end inference latency, and CareerPilot AI, a six-agent Gemini application built with Google ADK, Streamlit and Docker. At InSpite Technologies, generated AI video and audio for the live NCLIPS.AI product and helped cut overall work time by almost 20%. Oracle-certified in OCI Foundations, AI Foundations and Agentic AI.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL (Oracle SQL, MySQL)
AI / Machine Learning: Machine Learning, Deep Learning (TensorFlow, PyTorch), scikit-learn, MediaPipe, Generative AI, LLM Basics, RAG, Prompt Engineering, Agentic AI (Google ADK)
Data: NumPy, Pandas, Matplotlib, Seaborn, Data Analysis & Processing, Mathematics & Statistics
Web & Backend: FastAPI, Django, Streamlit, Java (JSP, Servlets, JDBC), REST APIs, WebSocket, React, HTML, CSS
Cloud & Tools: AWS (EC2, RDS, Elastic Beanstalk), Oracle Cloud Infrastructure (OCI), Docker, Git, GitHub, Hugging Face Spaces, Linux
Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP)

PROFESSIONAL EXPERIENCE

Software Developer Intern (Stipend-Based) – AI Video Platform May 2026 – Jul 2026
InSpite Technologies, Kochi, Kerala | Product: NCLIPS.AI (nclips.ai), AI NCLEX tutor

- Generated video and audio content with the latest AI models for NCLIPS.AI's visual lessons and integrated it into the live product.
- Suggested and implemented changes that improved AI video quality and cut overall work time by almost 20%.
- Applied hands-on prompt engineering to improve the quality of generated content.
- Onboarded and guided newly appointed interns on the existing AI video generation workflow.

PROJECTS

Gesturera – Real-Time ASL Recognition System
Python, PyTorch, MediaPipe, React, FastAPI, WebSocket

- Built a full-stack real-time application connecting a FastAPI backend to a React frontend over WebSocket, achieving sub-33 ms end-to-end inference latency.
- Integrated a PyTorch inference pipeline with MediaPipe hand tracking to power live, browser-based American Sign Language recognition.

CareerPilot AI – Multi-Agent Career Mentor (huggingface.co/spaces/milaa1/careerpilot1)
Python, Google ADK, Gemini, Streamlit, Docker, Hugging Face Spaces

- Built a sequential multi-agent system of six agents (validator, resume analyzer, skill-gap, course recommender, roadmap generator, summarizer) that turns a resume and target role into a week-by-week study plan.
- Implemented PDF resume parsing with path-injection protection, LLM-based input validation and PDF report generation; added unit and integration tests, containerized with Docker and deployed on Hugging Face Spaces.

AchieveVault – Student Achievement Portfolio Platform
Java, JSP, Servlets, JDBC, MySQL, Bootstrap 5

- Built a full-stack web application with goal tracking, category management and analytics dashboards for managing student achievement portfolios.

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027 (Ongoing)
Saintgits College of Engineering, Kottayam, Kerala | Current CGPA: 7.96

B.Sc. Mathematics 2021 – 2024
St. Berchmans College, Changanacherry, Kerala | 59.9%

Higher Secondary (XII) / Secondary (X) 2021 / 2018
Mary Rani Public School, Changanacherry, Kerala | 80.40% / 86%

CERTIFICATIONS

- Oracle Agentic AI Foundations Associate – Oracle Cloud Infrastructure (2026)
- OCI AI Foundations Associate – Oracle Cloud Infrastructure (2026)
- Oracle Certified Foundations Associate – Oracle Cloud Infrastructure (2025)
- Diploma in AI with ChatGPT & Python – Trinity Professional Academy, 90.6% (2024)
