CAREER OBJECTIVE

Computer Science graduate pursuing MCA, with hands-on full-stack and backend development experience in Python, Django, Flask and C++, including a six-week internship shipping backend features for a live AI product (nclips.ai). Seeking a Software Engineer Trainee role where I can build full-stack features, write clean and well-structured code, and grow through real production work. Open to full-time, in-office work in Bangalore or Calicut.

TECHNICAL SKILLS

- **Languages:** Python, C, C++, JavaScript, PHP, HTML, CSS
- **Frameworks:** Django, Flask, jQuery, AngularJS
- **Backend & Databases:** REST APIs, MySQL, SQLite, relational schema design, role-based access
- **Cloud & Tools:** AWS EC2, AWS RDS (MySQL), GitHub, VS Code, DevOps/DevSecOps basics, applied AI tooling, basic ML

EDUCATION

Master of Computer Applications (MCA) 2025 - 2027 (In Progress)
Saintgits College of Engineering (Autonomous), Kottayam | CGPA: 7.52 / 10 (up to Semester 2)

B.Sc. Computer Science | St. Thomas College, Kozhencherry | CGPA: 6.30 / 10 2025

Higher Secondary (XII) | Govt. VHSS, Kollam | 90.25% 2022

Secondary School (X) | Govt. VHSS, Kollam | 98% 2020

INTERNSHIP EXPERIENCE

AI Software Developer Intern (Stipend-Based) - Inspite Technologies Pvt. Ltd. 18 May - 3 Jul 2026

- Shipped backend features for nclips.ai, a live production AI-powered application, over a 6-week engagement, collaborating directly with the engineering team on user-facing functionality released to real users.
- Built and debugged backend API endpoints within an existing production codebase, gaining direct exposure to real-world release cycles, code review and live-deployment debugging workflows.

Web Development Intern - Nestsoft TechnoMaster Pvt. Ltd., Kochi 15 Dec 2025 - 3 Jan 2026

- Completed a web development internship, building hands-on skills in full-stack web technologies.

PROJECTS

ResQLink - Emergency Response System (SDG Project) 2026 | Saintgits College of Engineering

- Designed, built and deployed a full-stack emergency response platform to AWS EC2 supporting 3 user roles (User, Volunteer, Admin) with dual-login and volunteer verification.
- Configured AWS RDS (MySQL) connectivity and Gmail SMTP for automated alerts, with IP-based geolocation fallback.
- Aligned with 3 UN SDGs: Good Health and Well-being (3), Sustainable Cities and Communities (11), Peace, Justice and Strong Institutions (16). **Tech stack:** Python, Flask, MySQL, AWS EC2, AWS RDS.

Organ Donation Management System 2024 | Django Web Application

- Built a Django web app with 3 role-based portals (User, Hospital, Admin): donors pledge organs to a chosen hospital, hospitals approve or reject pledges, and admins verify hospitals and manage organ requests.
- Designed a relational SQLite schema (4 models, 25 routes) with blood-group-based request matching and a pyttsx3 voice alert on failed login. **Tech stack:** Python, Django, SQLite, HTML, CSS, jQuery.

Campus Placement Recruitment System 2025 | St. Thomas College, Kozhencherry

- Designed and built a web-based campus placement system with 3 core modules (registration, job search, result management) covering student, employer and admin workflows.
- Relational MySQL schema with a PHP backend. **Tech stack:** HTML, CSS, PHP, MySQL, AngularJS.

Expense Tracker 2026 | Saintgits College of Engineering

- Built a Python application to record, categorize and analyze daily income and expenses, with summary views to support personal budgeting.

CERTIFICATIONS

Python Django - The Practical Guide (23 hrs) - Udemy Jan 2026
The Complete Full-Stack Web Development Bootcamp (61.5 hrs) - Udemy Nov 2025
DevOps Foundations: DevSecOps - LinkedIn Learning Mar 2026
Understanding Edge Computing in a Cloud Computing World - LinkedIn Learning Mar 2026
Mastering Unity VR Games! - Udemy 2026

ACHIEVEMENTS & WORKSHOPS

- **NASA International Space Apps Challenge 2025:** recognized as a "Galactic Problem Solver" for outstanding participation (Oct 2025).
- **Young Innovators Programme (YIP 8.0), K-DISC, Govt. of Kerala:** submitted an innovation idea and received a Certificate of Recognition (Nov 2025).
- **IEEE & IEEE Computer Society:** Graduate Student Member, Saintgits College of Engineering (2026).
- **Workshops:** Research Writing and Publication in the Era of AI (Feb 2026); Career Path to Become a MEARN Stack Developer (Feb 2024).
